The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 7, & 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Haug 3,940,100.

Haug shows a tripod shaped structural element, having connectors 14, to connect with adjacent elements. Haug does not show that these elements may be used to construct a spherical structure, but that is a suggested use not required by the claims.

\* \* \* \* \*

Claims 4-6, 8-12, & 14-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
